

# SUPER SCIENCE FIELD TRIPS

Exploring a  
vacuum chamber

Fifth-grade classes are invited to take part in a Super Science Field Trip to the Discovery Center at Lawrence Livermore National Laboratory.

At Super Science, students will enjoy a combination of science displays, group activities and interactive experiments.

Activities are matched to California State Science Standards. Prior to the field trip, teachers will receive a pre-packet of information for use in motivating students in science. Additional materials will be provided after the visit for use in the classroom.

Experimenting with  
states of matter

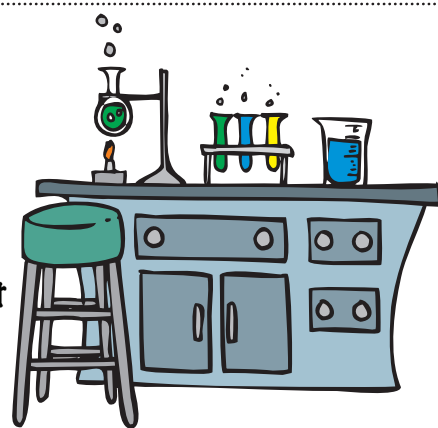

## Program schedule:

9 - 10:00 a.m. Students enjoy science and technology displays at the Discovery Center.

10 - 11:30 a.m. **Fun With Science!**  
Students participate in and observe experiments demonstrated by a Lab scientist meant to reinforce basic concepts in chemistry, electricity and states of matter.

## REGISTER YOUR CLASS TODAY!
